Aston Martin will go to the sea

AUTO NEWS

May 7, 2015 Author: [Kseniya Turok](#)

The company Aston Martin will launch mass production yacht AM37. Firstborn will be launched before the end of 2015.

The yacht is designed in cooperation with the Danish yahtostroiteley Quintessence Yachts in the UK. Its length - 37 pounds, and the body is made of carbon fiber and composite materials.

Due to the lightweight design, created with the participation of studio Mulder Design, the yacht is gaining a good move: a top speed of 50 knots (92 km / h). It will also offer a more powerful version of the yacht AM37 S, allows to develop 60 knots, which is equivalent to 111 km / h.

The cost of a luxury yacht is not reported, but they certainly will decorate the collection of any fan of vehicles Aston Martin.

Эх, жаль Aston Martin не успел использовать эту яхту в предстоящем фильме о Джеймсе Бонде, неплохая реклама бы получилась.
