If owning a yacht wasn't extravagant enough, how about one designed by one of the most storied luxury automotive makers in the world? In an exercise in pure opulence, Quintessence Yachts has collaborated with Aston Martin on the AM37 powerboat, the first model in what is expected to be a series of water crafts from the two. The 37-foot vessel is the ultimate in performance and comfort, combining the expertise of both brands in their respective fields to produce a high-technology composite structure that boasts sports car-like handling, an interactive voice control and activation, fully HD-integrated touch screen, and remote controlled functions.

Bad news on the music front surfaced today as singer Ben E. King – the voice behind feel-good anthem “Stand By Me” – passed today in New Jersey. Having come to prominence during his tenure with The Drifters in the 1950’s, King also produced hits such as “There Goes My Baby” and “Save the Last Dance For Me” during his lengthy career. At 76 years of age, the North Carolina native passed near his Teaneck, NJ home, after a heart ailment proved too hard to overcome. “Stand By Me” is one of the most beloved songs in the American canon, standing as the fourth most-played song on U.S. radio and TV of the 20th century. While the music community at large mourns this loss, take a few

moments to reflect on his memorable song, which is playable below.
