Disegnata per meravigliare! Provala da Effemotors a Reggio Calabria.

Aston Martin has teamed up with Dutch boatbuilder Quintessence Yachts to design a luxurious and high performance powerboat called "AM37" that will bring Aston Martin's motto of "power, beauty and soul" to the high seas in a very special way.

The tantalizing powerboat will be the foundation of an entire range of watercrafts designed by these two companies, which will represent the ultimate sports driving on the water. The vessels will have an ultra light, hi-tech composite structure, a sleek design and supercar-like handling, comfort and performances.

FRESH LUXURY LIS

Measuring 37 feet long, the AM37 will be a 'gran turismo' leisure powerboat which could reach a top speed of around 44 knots. Quintessence Yachts have already announced that there will be a faster, AM37 S speedboat, that could cruise at speeds of 32 knots and it could reach a top speed of 52 knots.

Furthermore, this strikingly hot powerboat will come with interactive voice control and activation, a fully HD-integrated touch screen and remote controlled functions. More details about the Aston Martin-on-the-sea will be unveiled soon, but future customers can already get more info about this project on a strictly confidential basis.
