Aiming to complete by September this year, British luxury brand [Aston Martin](#) has revealed its first ever speedboat, the [AM37](#), in Dubai.

Coming in two variants the first one is the AM37S with twin 600 hp Mercury petrol engines and a top speed of 52 knots while the second is the AM37 with twin 520 hp petrol engines with 44 knots top speed.

Created in collaboration with [Quintessence Yachts](#), the boat will feature a sliding deck and on-board interactive voice control. The deck will allow owners to completely cover the cockpit of the boat, protecting it from elements such as bad weather.

Security has been beefed up where by with a click of the AM37 key, boat and possessions would be locked.
