LUXURY YACHTING & LIFESTYLE

The names we all know and love that pave the way for luxury in the automotive world have now gone beyond the parameters of their every day creations and into superyacht territory. With Porsche and Aston Martin to name a few, we take a glance back at some of the partnerships that continue to hold jaw-dropping expectation across the world of travel.

Aston Martin and Quintessence Yachts

The impeccable new Aston Martin powerboat, the AM37S prototype took centre stage at Monaco Yacht Show 2016, along with amazing features we experienced first hand. Remarkably stamped with Quintessence Yachts credibility, its ability to cruise at 30 knots makes it a smooth ride. Aside from this motion magnificence, its unrivaled craftsmanship; the ability to blend luxe and performance, are evidenced by its carbon fibre hull and carbon cockpit details. This fusion of hand-stitched leather and teak decks offer only the most glamorous and durable refuge to the ocean. Its finest edge; the vast choice of colours, allowing each AM37 to be personalised to its owner's personal requirements. The impressive ability to match your Aston Martin car and boat making it a stand-out creation.
