## Quintessence Yachts.

By Grace Howard June 15, 2017

*Yachting* climbed aboard the Aston Martin 37 at the Palm Beach International Boat Show earlier this year. Feast your eyes on this collaboration between the luxury car builder and Quintessence Yachts.

We've spotted the AM37 at a few boat shows, now. With a knifelike bow and a blue hull that shimmers in the sunlight, she always gets us to stop and stare.

Every fiber (or carbon fiber) of the powerboat displays signature Aston Martin style. There are leather, lacquered wood and carbon fiber accents — details that echo elements found in Aston Martin's luxury sports cars.

She first and foremost dayboat, but if you want to take her for an overnighter, the settee belowdecks converts into a berth for two.

**She's got the power:** With 520 hp Mercury gasoline engines, she can hit 50 knots, according to Aston Martin.
