## Aston Martin power boat to debut at Yachts Miami Beach

First a Miami-branded condo, now a sleek power boat

Aston Martin continues to invade Miami as we get deeper into 2017.

In the Fall it was announced an Aston Martin Residences (more renderings here) was planned to rise next to the Epic Hotel in downtown Miami and today it was announced the first Aston Martin powerboat will make its U.S. debut at Yachts Miami Beach this week, courtesy of Quintessence Yachts.

While the prototype Aston Martin AM37 powerboat was unleashed in Monaco in September, the 37-foot beauty can be seen at this year's event, taking place in Mid-Beach along Collins Avenue and across from the Eden Roc Hotel. Its price ranges from \$1.6 million to \$2.1 million.

The boat features a sliding deck, allowing for the covering and uncovering of the cockpit by the touch of a button, a wraparound windscreen comprised of one piece of sculpted glass, and a carbon fiber dashboard emitting the feel of Aston Martin's most sophisticated sports cars.

"As the exclusive builders of the Aston Martin powerboats, Quintessence Yachts translate design into functionality and technology to enhance the customer experience," said Quintessence Yachts CEO Mariella Mengozzi.

"Yachts Miami Beach is a strategic event for us to reach our clients and we are proud to showcase the AM37, a boat that represents an entirely new concept for the yachting world."
